Connecting leading Energy companies with the global Environmental community...

PetroEnvironment, the only forum of its type, will be held from the 7-9th February 2022 in Dammam, Saudi Arabia.

Initiated by ETMA, PetroEnvironment is Saudi Arabia's longest running, all-encompassing environment forum, attracting senior influencers from a truly global audience. It combines two outstanding events:

1. An interactive symposium where strategic and technical topics are discussed at length
2. A commercial exhibition where companies can showcase their expertise and services to end-users & decision-makers

Only run every two years, the PetroEnvironment exhibition offers unparalleled networking opportunities and sells out months in advance: early booking is highly advisable.

WHY EXHIBIT?

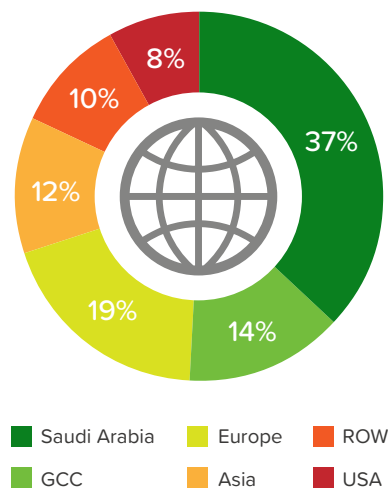

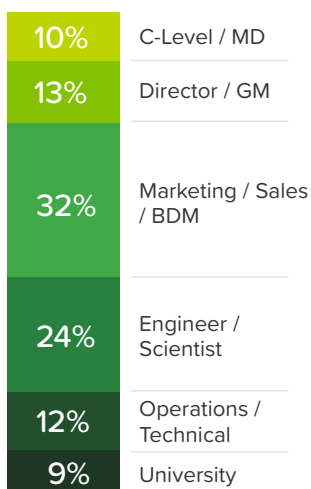

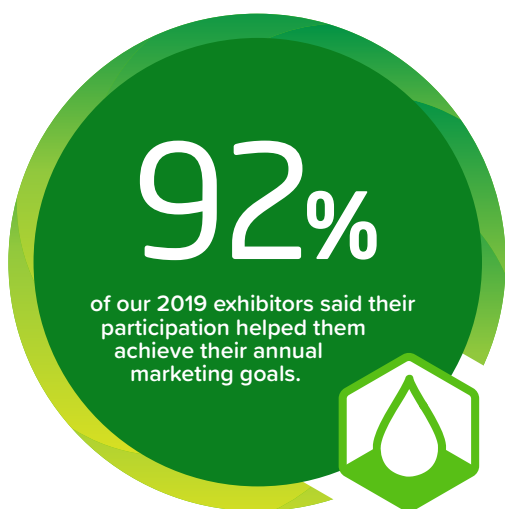

Exhibiting at PetroEnvironment is the most efficient way to connect with those who matter to your business - a targeted audience of decision makers and end users, offering a tremendous return on investment.

It gives you the opportunity to showcase your product or service, raise the profile of your business in the region, network and build new connections while strengthening existing relationships.

Energy giant **Saudi Aramco** has sponsored and exhibited at PetroEnvironment since its inception.
