Call for Technical Session Abstracts

The Environmental Technology and Management Association (ETMA) is delighted to announce the 10th Symposium and Exhibition on Environmental Progress in the Energy Industry, to be held at the Dhahran Expo - Dammam, Saudi Arabia from the 16th to the 18th of May 2022 under the theme of “Environmental Opportunities for Global Sustainability”.

Global sustainability presents extraordinary opportunities and challenges that, in the environmental sector, call for the application of best technologies and management practices, together with the development of new solutions through partnerships and collaboration. In alignment with Saudi Vision 2030 for an inclusive sustainable future, ETMA is convening the PetroEnvironment 2022 Symposium and Exhibition.

THE ROLE OF PETROENVIRONMENT

The PetroEnvironment 2022 Symposium, including its associated exhibition, will be an opportunity to:

- **Identify major current and emerging opportunities, including market opportunities**
- **Showcase new technologies and/or new applications**
- **Present new ideas, approaches and research findings**
- **Propose new pathways leading to increase sustainability and circularity**

The symposium, officially supported by Aramco, will demonstrate Saudi leadership, innovation, and talent, working to advance sustainability on the world stage. Leading professionals from within and outside the Kingdom will share their knowledge and expertise.

We are confident that it will enable interactive dialogue as well as first class networking opportunities. Further information on the event and highlights from PetroEnvironment 2019 can be found on our website www.petroenvironment.org.

ETMA Chairman Humoud Al Utaibi from Aramco EPD during the PetroEnvironment 2019 closing panel.

The symposium, officially supported by Aramco, will demonstrate Saudi leadership, innovation, and talent, working to advance sustainability on the world stage. Leading professionals from within and outside the Kingdom will share their knowledge and expertise.

We are confident that it will enable interactive dialogue as well as first class networking opportunities. Further information on the event and highlights from PetroEnvironment 2019 can be found on our website www.petroenvironment.org.

WHO CAN APPLY?

The PetroEnvironment 2022 Technical Committee would like to invite those with expert knowledge to apply for a speaking slot during the technical sessions at this year's symposium. Technical sessions will be held during the main symposium on the 17th & 18th May 2022.

The Technical Committee invite abstracts that convey deep insights into 'environmental opportunities for global sustainability', placing special emphasis on novel transformative ideas, approaches and findings that are practical and have wide applicability.

WHY APPLY?

You are encouraged to take advantage of this opportunity to:

- Share your valuable experiences to an audience of professionals, regulators and decision-makers, building on the Kingdom's Vision 2030
- Provide new information, propose new ideas and steps to implement these in relation to a circular economy
- Educate others on environmental issues and share any case studies
- Elevate your exposure on an international platform

SUITABLE TOPICS:

Abstracts focus areas should include the following:

- | | | |
|--|---|--|
|  Air Quality |  Industrial & Hazardous Waste |  Contaminated Site Characterization & Remediation |
|  Water & Wastewater |  Crisis Management & Emergency Response |  Sustainability |
|  Biodiversity |  Environmental Management Systems |  Waste Management |
|  Clean Fuels |  Naturally Occurring Radioactive Materials | |
|  Marine Pollution |  Environmental Laws & Regulation | |
|  Terrestrial Ecology |  Climate Change / Carbon Management | |
|  Industrial Hygiene |  Environmental Health & Impact Assessment | |

Should your abstract be selected, you will be assigned 20 minutes for an oral presentation during the symposium technical sessions. Your presentation slides will also be made available to delegates on the event website.

Please submit your abstract(s) as instructed on the following page...

ABSTRACT SUBMISSION GUIDELINES

- 1. Practicality:** The abstract should deal with new concepts, ideas or novel applications that meet the current environmental issues, with a focus on the circular economy.
- 2. Status of Project or Idea:** Establish that the technology or case study is well developed.
- 3. Technical Content:** State the objectives and scope of the technology or case study.
- 4. Benefits & Significance:** Demonstrate actual benefits or applicability across the Kingdom and further afield.
- 5. Quality:** Prepare with care, paying attention to style, organization of the abstract and accuracy of data presented.

SUBMISSION REQUIREMENTS

- Abstract title should be no longer than 10 words and description no longer than 800 words
- Provide author name(s), affiliation(s), email address(es), and telephone number(s)
- Provide a brief biography of the presenter (200 words or less) as well as a photograph
- Above information should be supplied in MS Word format
- Abstracts should be emailed to: speaking.pe22@aym-events.com

All speakers are responsible for their own travel & lodging expenses during the event.

KEY DATES

Abstracts Submission Deadline:	14th Mar 2022
Acceptance / Rejection Notification:	21st Mar 2022
Submission of Presentation for Review:	28th Mar 2022
Feedback from Technical Committee:	11th Apr 2022
Final Presentation Submission:	14th Apr 2022

**DEADLINE
EXTENDED**
